WHAT TO BRING – Archery hunters:

Note: Please continue to get into shape. Base camp is 7400 ft. elevation

Bow - 55lb. draw weight or above recommended
1 dozen arrows - We do have a target for field tips at camp
bow sling (for carrying bow on horse)
range finder - optional, but helpful
binoculars
knife
small quiet day pack or fanny pack
rain gear (quiet)
water bottle or water bladder for your pack (it is important to stay hydrated)
camera
sleeping bag, mummy style with stuff sack (rated to 0 degrees)
good flashlight and headlamp- extra batteries
camouflage tops and bottoms(at least 2 sets) – we like the predator style camo
personal toiletries and medications (ie, biodegradable soap, chapstick)
wash cloth and towel
2 sets underclothes (silk, capilene or Under Armour)
1 set of camp and riding clothes and shoes (different from hunting clothes)
1 pair light snow packs for hunts after mid September (optional)
1- 2 pair waterproof hiking/hunting boots with several pairs good wool blend socks
1 light coat, sweatshirt and vest
1 medium warm coat
light hat and gloves
camouflage makeup or head net
Bow hunter's ed. certificate or previous archery license for purchase of archery stamp

Make sure all your hunting clothes, pack, rain gear are made of quiet material like wool or fleece.

Our weather can change very quickly. Try and prepare for most situations, and temperatures from 70 degrees F to 10 degrees F. We suggest dressing in layers (light to medium weight) so that you can maintain a constant body temperature. Shed layers if you heat up and add layers if you get cold. Take the time to break in all hunting footwear. Foot injuries can severely affect your hunt in many aspects.

Shoot under all conditions and angles, both standing up and from your knees. We have many shots missed because of leaning around trees and brush to shoot. Be proficient with your bow out to 45 yards. Be sure to practice shooting with all hunting clothes on. Make sure no articles of clothing are in the way, or the bow is being held different because of heavy clothes and thick sleeves.

****Pack gear in duffel bags. We recommend a 36" (length) dry bag. They are easier to pack on the mules. Keep weight to 75 lbs.**
